## **WOOFERS' TRAINING CLASSES**

### **PUP ESSENTIALS**

*Pup Essentials is aimed at teaching your pup (or older dog) basic obedience cues in order To help your dog become a well-behaved member of the family.*

*How we deal with our puppy in those first few months with us can be crucial to our pup's future development. Teaching our pup impulse control (wait, or stay) how to walk nicely on leash and various other basic behaviours will help your pup listen to you better and help to strengthen your relationship.*

*If you adopt a dog from a rescue organisation, then it's possible your new dog may not have had any previous training experience. These classes are suitable for older dogs with no previous training and can certainly help you and your rehomed or rescue dog with relationship building while they are settling in a new home. Training together can help you create a bond with your new puppy or your rescue dog which helps to promote in your dog feelings of comfort and security. Training can also help to instil confidence into puppies and shy dogs!*

*If you have a young dog who is going through the "terrible teens" where they suddenly stop listening and forget any training they have previously had, then going back to basics can help you and your dog get back on track. This class can help you do just that.*

**PLUS** you get email and phone support for 4 weeks after the classes finish
