WOOFERS' BEHAVIOUR PACKAGES FOR DOG OWNERS

These packages consist of private lessons which are designed for you to take with me at times which fit in with YOUR schedule.

*You can have a **one-off** session with me if you have an issue you want to discuss which might be easily resolved. The cost of a one off session is \$100.*

If you buy a package from me, then the cost per session is reduced. If your main issue is mentioned here, AND you have a secondary issue that you need help with, we may be able to deal with both within that package to save costs for you. I am happy to discuss this!

THIS PACKAGE:

No More Lunging!
(Helping you and your dog with leash reactivity)

Do you walk your dog at night or at quiet times to avoid the stress of your dog's reactivity to other dogs/people/moving objects? Can't face the stress, and sometimes the comments and judgements of other people when the reactivity happens? Though you love and adore your dog, walking on leash is something you dread. I know, because I've been there, done that myself many years ago!

Virtually all reactivity on leash is caused by anxiety and fear in your dog. There can be dogs who are reactive through frustration, but the remedy is the same.

My goal in working with you is to change your dog's emotional reaction from fear to "I don't care" or to bring the reactivity down to a level that is easy to manage, (this might sometimes be the case for dogs that have been leash reactive for a long time) so you and your dog can leave the stress behind and both enjoy walking on leash!

No More Lunging Package – Four Sessions

4 sessions, each two weeks apart to allow you time to put into practice what you learned at each session. Each session will be 45 to 60 mins. **The cost includes access to me via email or phone during the time we are working together and for 4 weeks after the date of our last session together.**

Session 1 is an assessment, and given the Covid situation, will be at your home if we can sit outside in your garden or on a deck to chat. If not, then this will be via video instead. I will take notes of you and your dog's history together, the issues you have, and we discuss how we might resolve them. This session normally takes between 1 to 1.5 hours. If I am able to record the session, I will send you a copy of the recording (sometimes, for some reason, the session won't record!)

All you need is a phone or a laptop with video capability and to download Zoom, which is free to you. If you already have Whatsapp then we can use that instead if you prefer, but I won't be able to record the session.

At this session I will be giving you some exercises to learn and practice which will help us when we meet for our first working appointment.

I will then submit to you a written assessment and training plan along with an invoice for our sessions which please pay at that time. I will also send to you a document containing my terms and conditions for you to sign, which is a requirement of my insurance company.

The three sessions thereafter will be working sessions outside with you. I will film these sessions which will be uploaded to a You Tube channel and the link sent to you. This link will be only available to you and not public. This will help you to remember what we did during the session so that you can practice. As well as being able to watch again what we did, you will also be able to hear the instructions I gave to you at the time.

To ensure safety, when we meet to work together, we will be outside, adhering to social distancing and wearing masks.

Cost: \$340 payable on receipt of my invoice via cheque or e-transfer
